Errr... you completely missed my point.

My point is that YOU should be smart enough to know that your cousin is a fucking MORON and isn't to be trusted. Assuming that you've been playing the game longer than a week, you know that he's been banned continuously. As well as knowing that you can be banned by IP, not just nickname. It doesn't take a stretch of the imagination to realize that you'd be banned by simply using his computer because he's an idiot.

Edit: No, troop, I just join random communities that I have absolutely no connection to...

Are you seriously this fucking stupid? I've been playing this game since the week it was released. Not constantly (and my being horrible at the game is evidence), but I'm certainly not ignorant to the game.
