luv2pb wrote on Sun, 10 August 2008 10:46 Find a job that will pay you to go to school. It is really a win win. You have a company who is invested in you and you have a job that is going somewhere. Plus if the job falls out from under you then you just fall back on that degree they paid for. Sure you are not going to start out making bank or with a great position. But you are starting. trust me im find everything i can to help me and make shit better
