No, it works fine. But that's why I needed the external DLL (instead of just using scripts.dll).

Anyway, I put it into beta, so here's the link:
<http://74.220.215.227/~niteserv/viewtopic.php?f=5&t=474>

PLEASE make sure you read the Readme first. I'm tired of helping people who don't have the courtesy to consult a text file first.
