Rise of Apocalypse, the mod turning renegade into it's own based on a more realistic (and Tiberian Dawn true according to some intel) version of Tiberian Dawn, or, atleast, two years after its conclusion, has begun releasing strange messages.

The mod which haven't been updated since last christmas, with the exception of this picture: (but which has been in production in over three years)

started to show strange images a few days prior to this post. Below I include what appears to be the first, real notification that the mod is in fact alive and perhaps prospering:

Now, there is very little to make sense in all of this, however, it would seem that they have taken it to the next level.

Below I include a news post also containing a audio clip of what appears to be a intercepted broadcast which seems to be originating from Nod, however, who put them on the moddb page is a mystery, afterall, it also seems that the transmission and included text is confidential GDI material. What Exacly is happening is unknown, but have a look at the included audio transmission below, and have a look at the textual transmission aswell. See if you can make some of it. Perhaps you should even head to <http://www.moddb.com/mods/5570/rise-of-apocalypse> to see if you can figure out what exacly is going on ?

"Commander, we have retrieved encrypted audio from a Nod gathering as I am sure you are already well aware of."

"The Decryption is still in progress, however, we have some alerting news. This is strictly confidential."

"After the crushing blow at Sarajevo where we crushed the fanatic leader of Nod known as Kane

we had gotten the impression that Nod forces had begun to falter, and that the organization known as 'The Brotherhood of Nod, had collapsed. However, it would seem that someone else has gathered up the loyal following of Kane, and is rebuilding the organization. Our spy's Intel goes far beyond this however, this line may have been compromised."

"We will talk again soon. Be wary of who you trust commander."

"Nod may already have spies well within our ranks."

Decrypted Message Extracted From Nod Part 1:

**\*\*Take Note. Above link leads to AUDIO MESSEGE supposedly broadcasted by Nod\*\***

Since this audio clip two more pieces has been released.

The first is another transmission containing green text on a black background.

The second one however, entitles something new.

It's this picture with the following description

Quote:A man was found this morning, dead. He had no ID or any information that could lead to who he might be. He only carried this photograph.

On the back, the words "Trech Gutters" were spelled.

We must find these "Trench Gutters" as it could potentially be the last big Nod stronghold. See what you can make of it.

I have no doubt that we will hear more of this in the coming days, be sure to be on the lookout.
