hey , restored my comp, so gon threw all the instaling renegade /rengaurd again etc,but first time i installed rengaurd few months back it atomaticly did core patch 2 for me,this time it hasent, so downloaded it myself, but its not lettin me install it , it comes up with " cp2 must be installed in a renegade tfd folder"...which it is ??? im lost, any help much apriciated . can get me on msn if it be easier.. chiefs Luke@hotmail.co.uk.

ps downloaded cp2 from another site and the patch.exe file is missing .
im lost :S lol
peace
