samous wrote on Sun, 17 August 2008 14:36 Well, if anyone does figure out a way to add a line or so of script to get you to acquire the power-up and turn stealth, that would be cool.

=Samous

PS: is there a opposite of the M00_Disable_Transition script?

1) this script attached to the preset will turn u stealth when ever you pick it up

TDA_Stealth_Armor

2) each powerup preset you need to check "alwaysallowgrant"

3) each powerup is BLANK you need to attach a script like "grant powerup on pickup or something related to that since i forgot the name onto the preset then type in what you get when you pickit up

PS: this is all done via level edit serverside if you do not know how to put scripts on the powerups via level edit please say so
