Quote:Oh hey look, a former Westwood employee thinks it's a bug, guess you were all wrong. Now bring on the ZOMG LIEK HE WEEREN'T TEH CODER WHO MADE TEH TING!!! his input there is about as helpful as the input from a Westwood janitor he, like us, looked at it and since he's a rational person agreed that it looks like a bug the fact that he had 100% nothing to do with the creation or coding of the points system makes all the difference

yes he agreed it looks like a bug, like we have said; unfortunately that doesn't mean it's a bug ;(
