"-201 Attach_script, 7, "GTH_Credit_Trickle", "50"

Now they'll get 50."

Acually, they get 50 every -1 seconds. So they get thousands off \$\$ with just one veh. I want to know if there is a way to give off just a little. Also, I look around for times scripts for renegade, I haven't found anything usfull yet.

-But thanks for the replies.

=Samous

PS: If you know anyone that has modified c130 stuf before, could you dirrect them here?

EDIT: Note, for anyone wanting to give your sel unfair amounts of \$\$\$, don't set the credit trickle to 250, or else you will not get any \$\$\$ (unless you happen to be playing single player).
