Ryu wrote on Tue, 26 August 2008 21:07 That card has had a numerous of shit load bugs with Vista (apparently), Creative aren't so good with coding Vista Drivers..

in my opinion.. You should get back on XP and wait till everything you use on your pc works fine with Vista, hardware and software wise.

Never had any problems here, and I'm using Vista x64 (which breaks *alot* of drivers)
