lol this means McCain can't use his "inexperience" rhetoric against Obama. I think McCain cares more about winning this election than for the future of the country lol.

A VP is suppose to be fit for role of President if something happes to the PResident. MAN, I would rather have Hillary be PResident than this unknown Palin lady....just imagine her being President.

I think this VP pick has a chance to backfire.

I can't wait for the VP debates where Biden will own Palin roflmao

Muad, she is also pro-life...so women who are unsure about abortion or who believe that they should have a choice in their babies won't really like her.

note; I am not for Obama or McCain...I am more liberatarian but just my 2cents I think. Obama seems to think everyone will cooperate to his plan lol he will have many enemies if he wins and he would find it very hard to accoplish things hes promising now.
