Well, they could just take the DNA and track the father.

And one more thing, even though I said I only accept abortion in those circumstances, I also don't want the current law to change. I realize that it is wrong, but would rather focus attention elsewhere because the current system works and I don't think it needs to actually change. Like I said, the right thing isn't always the wanted thing. :\

And I actually support circumcisions. I am male, and I find it as a very important thing to do. I always thought it was kind of disgusting not to do it.. :\
