I Am Trying To Find A Program That Backs Up Your Entire Hardrive For Example, All Your Settings Will Be Saved To C.D.s And All You Would Have To Do Is Load A New Hardrive And Put In Those C.D.s It Would Auto Matically Install The Operating System On The New Hardrive And Then Put All Of My Files And Settings On It Saving Me A Lot Of Time And Effort To Install A New Hardrive And Put All Of My Settings On It And Much Less Effort Would Have To Be Used.
