samous wrote on Thu, 11 September 2008 11:39Hey, I've been searching around for a mod that would either let you play ALONE in a mp game, or a mod that would let you all be on the same side. Does anyone know where I can get either of those? I really want to test out mods, while waiting for someone else to come and help me test them out.

PM me if you would like to be my tester-of-mods-persone.
