Nice lie, that was only that "LordMot" guy, who like crimson was chosen at random to just try the game. The fact he had no idea, nor even noticed it AND WAS AN OFFICIAL WESTWOOD beta tester for this game PROOVES:

a)westwood didn't notice it, therefore was not fixed because it was not significant.

b)when finally released it and the many hours of beta testing (crimson I guess can attest to this?), the gameplay was deemed fair.

Ok, let's fix blue hell for everyone else but you, and make it happen more often too! Westwood intended blue hell amirite?
