Thanks roshambo, thatw what I needed, if it worked...

For some reason, it loads up, asks for a .dat file (there sn't one in the dirrectory, or in data), I switch it to .exe, and it still doesn't reconize any of the .exe programs I have in the folder its looking through. HELP!

Also, I know how to play mp games in sigle player mode, but I whanted others to join, so your wrong dthdealer, sry.
