Cabal8616 wrote on Thu, 02 October 2008 18:53 There's a difference between education and common sense. It's like if I went into a forum about politics, and complained about my cell phone dying, and asking how I can get it fixed.

The fact is you know about forums, my first knowledge of forums came from renegade when I got banned from a server, It took a while but now I can easily navigate forums.

Would you condemn a child for not knowing that playing in the street is bad, without learning this shit no one will grow to ur or my knowledge level.
