My preference would be C&C Renegade 2, with no single player (to make sure they focus on 99% of the game, multiplayer aspect), with only nod and GDI, and make AOW mode the norm, but make integrated ctf, snipe, etc instead of it being done on a server by server basis. And ofcourse no ties to any other C&C games (especially RA bullshit), but just to renegade as a sequel. Ive dreamt of this many a nights...
