True C&C is the tiberium universe (nod vs gdi) that soviet etc shit is just gay, you all agree if you play this game...unless your here and don't play renegade/don't like it in which case your gay aswell. A true C&C is the story of the Tiberium Universe, which despite what EA says about RA2 and RA3, RA1 is a prequel to Tiberian Dawn.

Scrin fit in nicely as they are the source of answers for Tiberium and why it is on Earth (however I do wish that they were introduced a bit more... ominously.. not "lol alien invasion" like they were in C&C3. )
