K shadow I am on. Hope the community goes well. Oh and anyone else who sees this, me and SHadow are Starting a clan for Renegade called [GUN]! Yes you've heard of it before! [GUN] was an old renegade clan who merged to create [L0d]. Now me and shadow have decided to make a new [GUN] and start recruiting. We have been told countless times that you cannot recruit for a renegade clan anymore but were are gonna give it our best shot. We have set up a basic site (not remotely finished yet) at <http://gun.tiberiumcore.com/> and are working on getting it finished soon. In the meantime you could add me on msn or email me @ [lightning36@live.co.uk](mailto:lightning36@live.co.uk). I will post a proper thread when the site and stuff are ready!

GOOD LUCK STEAM-GAMING!
