We now have implemented a Soundtrack area in the downloads section on our site.

You can download soundtracks from all your past and present games alike!

The section is in constant update there's only a few soundtracks on there now.

I'm uploading Halo right now.

www.plasticrevo.com

I hope you all enjoy this newly featured section of our site.

Members can only download the SoundTracks

So sign up and enjoy your rights as a member of the Revolution!!!!
