not shure, there is only one link, and i jts now downloaded it (i think bugfix). Also, could you add this skin for havoc to the barr?:

Thanks. Is there anyone out there who could convert this tga file to dds, my dds converter converts it, then when you play, the converted texture appears all black.

EDIT\*3:If the above statement is tru -anyofthem- i'm not a real man then, i don't smoke.

EDIT\*2: Reminder, this ios my first semi-good skin i have ever made, and all i use is paint and like 20 different pictures, so it will suck.
