Same here, I haven't personally seen any other mod do it before on Renegade, but of course I could be mistaken, but I just no I haven't ever seen one.

I might do that, I don't know yet though.

I had a plan for this main menu. It's only like 5% done with the goals I have for it, some CRAZY ideas, but the sand box thing might work with my goals as well.

I don't know yet though.

I will look into it.

But as for now, this main menu is the official theme.
