I like the game in one way but not in another, Takes the RA universe and turns it into generals universe. But I loved the new tank and weapon ides. I like the coop choose when your playing SP. One thing I did not like is how close your screen view is to the units I wish I could zoom out more. The major thing I don't like is having another CP on your side, while i'm getting ready the cp helping you has more tank then i build during the whole match taking all of my money. Its fucked up, I cant even get shit ready cause of them. One thing aswell That i like is having a hot ass girl with huge tits being there the whole game telling you what to do (russian side) Shes talking and im to busy checking her out haha.

Im not done with the game yet but seeing some things I thought ill post this,
Discuss your thoughts on the game if you have played it.
