Subject: Error with FPS readout while with Resurrection installed

---

My FPS readout is coming up as 0 when Renegade Resurrection is installed. Without Resurrection, the fps readout is fine.

The readout is permanently set to 0, and the text for the readout is red. Also, I'm talking about the text you see in the top right corner of the screen when you've used F8 - fps.

I'm using Vista, btw.

Any help please?
