He might have created some/all coding of the HUD, but Canadacdn created the (look) of the HUD, and the HUD itself is a 'Visual' thing, therefore, ITS NOT created by Scrin BUT BY Canadacdn. Still needs a credit though imo, towards Scrin's coding.

Also, if you read the topic about the HUD.....

that's true! but his 'visual thing' is too low quality...

Sir Kane got perfect quality, i remade it out from F.E.A.R renders (its good quality also)

and canad just copy and paste it out from SK's screenshots, im sure its ok for all of you, but i want my credits, for my code which is located inside "his" hud.ini

i lose too much time for that code (lol Jonwil put me into ignore list after my "help PMs"

i can do one good thing for you all, i can release my (or Sir Kane's) perfect quality textures for that hud k?
