TaximesOf course I'd like to hope that it's real, but there is a large chance that it is not.

Although Mark Skaggs did have connections to Westwood, he was working on Generals at EAP during most of Renegade's development.

The mentioning of a "Tank Supplier" feature is what throws me off...I can see EA fixing bugs, and possibly even EA adding ramps and aircraft to already existing maps, but completely new features seem too far out to be implemented by a company which hasn't really looked at the game in such a long time...

However, we'll see, I guess.

I agree. If this is a hoax, what kind of lamer would do something like this? Do they have nothing better to do?
