Hey, you think i'm not a fan of metroid... who is the main charracter agian... oh yeah <see name>! (the only dif is she spells samous differently than me) BTW: it is a nice apc, i would like it, except... this:

Is not as good as the rest. Van you make a version without the white metroid character (the blue one on the white background)? PLZ! I really like metroid stuff.
