You guys, you all need to pay attention to me and worship the fucking ground I walk on, because I have some customized .ini files and textures that change my Command and Conquer: Renegade gameplay experience slightly.

LOOK AT IT.

NO, LOOK AT IT SOME MORE. THIS IS THE PEAK OF MANKIND'S CREATIVITY.

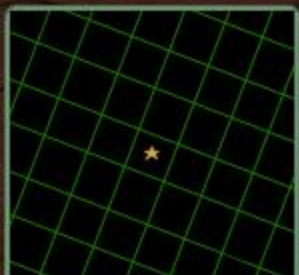

None of you will ever be as great as me. I'm doing you lowly peons a favor by letting you see these pictures, because clearly everyone here will never reach the level of C&C: Renegade modding omnipotence that I possess.

Please leave positive comments and PM me begging for the files. I need my precious ego stroked.

PLECOS
