I need volunteers to dress a list of valuable (read: things that other people can use) releases that can be transfered to the mod release forum.

I'll need a few persons. Each of them will need about an hour or so to scan the mod forum topics between a certain time span for releases. Your mission will be to list them in a nice list that contains the proposed new title (if it needs changing to be clearer), a category ([skin], [model], [map], ...) and the link.

I'll give a preference to people that have some knowledge of modding Renegade and that I believe are trustworthy.

Leave a message here or send me a PM if you're willing to help out .

This will be a first step. Once this is done, people will be able to report the forgotten releases. But until then, please wait for this small group of people to finish their task .
