Here's a PETA quote:

Quote:Lobsters don't deserve to be pulled from their ocean home and kept in tiny tanks in their own waste and then boiled alive.

How stupid...why not just release every lobster into the ocean then? Why not WE ALL BECOME vegetarians so these nuts get off everyone's back...

If I were that restaurant owner, that lobster would have been my dinner many nights ago...

100 bucks says that lobster has died by now.
If we give in to PETA then PETV (V for vegetables) will be soon to follow.
