Alright so I've tested the map out and there's a few problems:

1.) For some reason none of the doors are workin in the HON. They don't open/close you just kinda glitch your way through them and it makes the game seem pretty sloppy. Anyone know how to fix this?

2.) For the script JFW_Vehicle_Buy_Poke how do i determine where the vehicle appears when it is bought? Because there isn't anything in the script that you fill in for that.
