In the Wikipedia article of Renegade, Crimson's name has been replaced with a certain "Tim McDonald"

Quote:After the closure of Westwood Studios in February, 2003, the responsibility for maintaining the official forums for Renegade was passed on to Tim McDonald, who was honoured to be part of the community of such a stellar game.

I know it used to say Christine "Crimson" Korza. I just noticed this as I was trying to find more info on Renegade game re-releases (on my hunt for that green box art).

I DEMAND ANSWER.

EDIT: I just notice on the history tab a host of past vandalisms.
