djllaptopTheDragonif time travel were possible, wouldn't we have been over-run by tourists from the future?

Ever hear of gray aliens? Some people believe that these are actually humans under the natural course of thousands of years of evolution, that have travelled back to the past to study us.

Thats ridiculas. EVERYONE knows that the gray aliens are actually Ukranian pranksters with suits on who enjoy the common and entertaining act of mutilation on random westerners... DUH.
