RMCool13 wrote on Sat, 24 January 2009 17:16Yeah mines 1900x1200 as well. Kicks ass

The only shitty thing is not many custom huds are compatible with a res that size (the custom huds that i seen anyway)

I'm still getting used to the resolution, but I think I'll manage soon enough. Also I found that Deathlink's HUD works pretty well with this resolution.
