On a somewhat related note. I did *complain* to Yrr that with servers that have RR on you can make the pistol glitch so it doesn't ever get passed 1 ammo and I can go along without having to reload my pistol unless I change weapons (Basically it turns into the orca machine gun except the ROF is at the same speed as the pistol). Since RR will be put into the TT patch could someone isolate the problem and try to fix? I could always get you a FRAPs.
