<http://ren.game-maps.net/>

Do you have the game Command & Conquer Renegade and are interested in becoming a staff member on Game-Maps.NET?

We are looking for a new staff member to help us add downloads for Renegade

Requirements:

- * Basic HTML knowledge (<a> tags)
- * Filezilla FTP Client knowledge
- * Winrar archiver knowledge
- * Navicat MySQL software knowledge (is very easy to learn)
- * Basic image processing for making thumbnails and such in .png format and sometimes .gif
- * Trustworthy with access

If you are interested then you can post in this topic. We will discuss internally who we are going to accept as a new staff member.

All the required tools are available for download in case you don't already have them.

In case you wish to talk to us about this in person you can join the channel #game-maps on irc.mp-gaming.com

Before anyone replys, the Renegade Section is our main section, the work it takes to add skins to the site can be a long process, you only need to look at one of the files I have added in the skins section to see how much work it takes.

Thanks for reading.
