For those who yet do not know how to unwrap a model , basically making 1 texture to be placed around an object instead of 3-4 or more, so for all that have been crying out for help ive decided to make a video for you all.

Sorry if Quality is a little bad, this is due to me compressing it from 176MB,  
I hope you give back good feedback.

Here is the download URL:

<http://www.sdjl.biz/dlcount.php?id=warpath&url=http://warpath.arm-ent.com/up/uvwunwrapping-1.zip>

Enjoy.
