Make a Script that will replace "S" Button lol, Scud Storm has functions to upgrade your tanks, when you enetr tanks you will enable "1" "2" etc. If you do that with the "S" Button you could replace it (didnt tryed it maybee it works)

Edit Just replacinbg "S" wont work you can chage the settings -_- so you have to replace the whole "walk/drive backwards button" if you know what i men
