Completed my first version of the Airstrike for Museum Mod...

- added GDI&NOD Airstrike (GDI with A-10 Aircraft; NOD with Old SU-27 Aircraft); with PT-Icon
- Airstrike is available via COM Center, as long as COM Center is online (1000 \$)
- it's called via a Beacon (= Airstrike Signal Flare), used Singleplayer Signal Flare for this
- I decided to make it a multiple purpose weapon:
- after placing a signal flare (imediately), the strike will occur a few seconds later (~ 7 seconds to detonation)
- with this, its a offensive or defensive weapon, e.g. against a tank attack
- the strike has the power of a nuke strike (2500 damage), but doubled its damage radius (30 meters scaled)
- the strike will damage ANY unit (GDI AND NOD), so use it with care
- the strike will NOT damage any buildings (except mounted vehicles [Guard Towers, Turrets, Gun Emplacements]) - this would be to easy
- ATM I dont know a way to give points to the player for the damage caused by the strike
