My favorite must be renegade.  
I dont play that much video games, but if i play games it will be call of duty 2 or c&c renegade.

Mostly of the time im just working or scripting etc.  
Only got 2 games installed on my laptop, and that is cod2 and renegade.

The funny thing about renegade is, that i dont need scripts 3.4.4 because the SSD is already faster then the no load patch inside of those scripts.

SOLID STATE FTW YEAH!
