I have My own Renegade forums, there are very few ppl on it now, but I am going to post a topic on this there, just a link to this, and maybe some discussion on the cheats, and if we can find who is using them. And this program, does you game have to be dedicated for it to work, because I want to have this on my com if it isn't for dedicated servers only. BTW here is the links to my forums http://invisionfree.com/forums/Eclipse_Games
