This mod is excellent, i always wanted A-10 strikes, gunboats, recons bikes, SSM launchers.
thank you!

Just add those and the extra buildings like the shrine of nod and Adv. Comm. centres that control beacon purchases, helipads that air units are built from, repair bay, conyards that heal buildings, silos, sams etc, into a .mix type map and released with these goodies in it, then you will be playing c&c mode like the way it was supposed to be in all its glory.

Btw where do you get those skins for the med and mammoth tanks from?
