Try if you have only Renegade installed under TFD:

Start --> Control Panel --> Add/Remove Programs.

Locate TFD in the list and uninstall it. Then Reinstall from DVD.

Otherwise, use the Installer/Uninstaller that came with TFD (Put the DVD in and let it autorun)

omg

i'm trying to use the tfd and add and remove programs, and that is the error it gives me.

EDIT Solved i delete my EA fames folder and its letting me install ren again.
