Very nice, be added to Game-Maps.NET soon/tonight.

Just noticed something, has anyone thought about doing skins for the island hills that you see in that screenshot?

Just tell me how you want them

Ah, I don't know, anything really, can you make them more real, maybe do different versions, soild rocks, sand, greener hills, snow?

Hmm, anything other then the standard.

The hills on my islands have textures that make them look like solid rock, then sometime I like to have it snow so I have snow mountain style rocks.
