---

Well I just started playing Renegade again after taking a break from it for a while due to the cheating that was going on. I was playing a game tonight and then I noticed that a player by the name of kddypmp was cheating. How do I know this, well he just entered the game and already he had some ridiculous score. Yes he was sniping and no I don't think he is "just a good player" because of the ridiculous score he had and because he would sometimes be sniping one person every second. It was ridiculous. I start telling him to stop cheating and he just starts laughing and saying no. After arguing for a few minutes someone else on the server tells me to shutup and continue playing. I said I rather not and just quit. It really pisses me off to the point where I am thinking of just uninstalling the game.
