Canadacd wrote on Sat, 07 March 2009 00:20Uh, why don't you just try playing online?

maybe I will, but do I need to do anything special in order to play online? And there's probably a lot of cheaters online since the game shouldn't be too hard to hack.

[/quote]

You just need to make up a name that isn't taken. And servers generally have anti-cheats or ban people that cheat. And in some cases if they happen to slip by then there will be moderators on big servers.
