danpaul88 wrote on Thu, 12 March 2009 10:29It always bugs me that I need to put in my password to change the site theme.... why on earth does it require a password for that?!?

Because then if you logged on somewhere and forgot to log out, and someone came along and was able to change your theme, they'd peeve you off by changing it all the time, but you're protected from that! Which makes no sense, but regardless, it's to protect you from nasty heebie jeebies.
