Gohax wrote on Thu, 19 March 2009 11:18DEFINITELY something I will give a try. I actually may get to it later on today. I'll have my outcome posted up later on Thanks for the tut bro. I was going to ask you how to do this effect on msn when I saw this effect in your airstrip.

That effect was made with 3d modeling programs. so you have to edit w3d for it

But this is only DDS editing which means you only need photo editing software. so you don't need to use that complex modeling program
