Aucun wrote on Thu, 26 March 2009 16:29Got it but i don't have for Renegade Public Tools the script.dll or scripts2.dll

There in your C:/westwood/renegade. directory.

Um but that has nothing to do with what your doing anyways.

From what i can seem to see from your reply's here, my advise to you , would be go read on renhelp's site, in some of those tut's will help you understand just what it is you need to learn,then that will help you better impliment what you need to do after you mod a map.

Cuz no way in hell am i gonna explain it all to you here lol.

Sorry & good luck, and happy modding man
