Ugh, christ, I hardly ever post but I am have been lurking over all this Scrin shit for a long time now. When the bloody fuck is this guy going to be prevented from posting this shit? All he ever seems to do is stir up trouble.

EDIT: Oh, hey, does anyone happen to notice the doors he uses on the Refinery and Ob and such? Take a close look, those are doors from APB, blatantly stolen without giving any form of proper credit.
